TAXI DRIVER ROBBED OF \$131

Two Men He Was Carrying from Providence to Fall River Did It

POINTED REVOLVER AT DRIVER'S HEAD

After Robbery the Men Drove Off in the Machine, Leaving the Taxi Man

Providence, R. I., Dec. 1.-George Joseph of this city, a taxi driver, was held up at the point of a revolver by two men he was carrying to Fall River, while in Seekonk last night, and robbed of \$131.

The party was passing along Fall "DANDERINE" FOR the Smith icehouses one of the passential "FALLING H." gers said he wanted to get out and the car was stopped. The man who got out pointed a revolver at Joseph's head For a Few Cents You Can Save Your while the other went through the driver's clothes. The men then compelled him to get out of the machine, which they boarded, and drove off. A description of the two men was sent to Taun-ton and Fall River.

been possible. The saving to the world different.-New York Times in thus shortening the war is incal-culable alike in life and treasure." The text of the initial order to Gen. Pershing which is quoted, shows he was How N. Y. City Children instructed to keep the American army separate and distinct component of the combined forces, the identity of which must be preserved." The method of co-operation with the allies was left to his discretion and, Mr. Baker added, that the authority thus conferred "was never in any particular modified or diminished."

"There were elements in the problem which might well have caused grave apprehension," the report said. "The ares of France, Great Britain and Italy had borne for three years the furious foodstuffs to great civil populations. for women and children.
"Meanwhile the German armies had! A tube of this cream containing suffi-

by the collapse of Russia were daily being strengthened by divisions of trained soldiers brought from the eastern front until the menace of superior numbers and apparently inexhaustible supplies of the munitions of war hauntthe councils of the allied powers. "But those who visited Gen. Persh

ing's headquarters during the war know that from the beginning there was resolution and a clear-sighted knowledge of the size of the task. It would have been idle to plan for a small American army. On the other hand, it required imagination and dar-ing to plan for a Jarge one—to take a million American men to France, separate them from home by 3,000 miles of ocean, and subject them to the hazard of the uncertain and diminishing food supplies of Europe. And there still remained the further question: If Approves General Staff Bill these difficulties could be overcome, could they be overcome in time?

"General Pershing and his associates gave no room to doubt and accepted no ounsel except that of determination. When the critical hour came and the combined energies of the United States and Great Britain did surpass all previous estimates and land 2,000,000 men in France, the arrangements made for nance were found adequate; and had the war gone on and the 80-division his annual report. New IDEAL-Arcola Radiator-Boiler

A house or a flat is sadly handicapped nowa-days unless it is comforted cheerily throughout with this IDEAL Radiator heating outfit.

The only way to change a house or a flat into a genial, cozy, healthful, cleanly HOME, making every nook and corner warm and the floors and halls free from chill spots and drafts is with this wonderful new invention-the IDEAL-Arcola Radiator-Boiler.

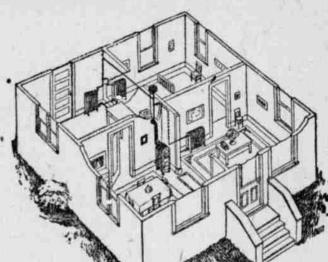

The IDEAL bargain in low-cost heating!

The IDEAL-Arcola takes the place of a parlor-stove, radiating its soft, June-like warmth to the room. The IDEAL-Arcola is hollow-walled, the space being filled with water, which as it is heated circulates over and over, constantly, through piping to AMERICAN Radiators set in adjoining rooms. ALL the rooms are therefore warmed ideally and from the one fire. There is no coal-waste!

Gives utmost comfort and coal saving

No cellar is needed. Everything is on one floor. If there are two or more tenants in the building, each can have his own Arcola and make the temperature to suit his own needs—can make his own climate! If you do not wish at first to heat all the rooms, buy a small size IDEAL-Arcola and one or two radiators, and later on buy extra sections for the IDEAL Arcola and two or three more radiators to warm more rooms.

> Catalog showing open views of houses, individual flats, stores, offices, etc., with the IDEAL-Arcola Boiler in position will be mailed (free). Give your home and

end of each one; this will let out the moisture and make them mealy.

Try putting a pinch of soda into the pan next time you are boiling cabbage or onions and prove to yourself that it makes their odor less strong.

When the children have had their fun rom the Christmas tree, convert it into a Christmas tree for the birds by putting it outside and trimming it with suet, crusts and popcorn. If you wish to have well cared for

hands while doing housework you must be willing to wear rubber gloves when washing dishes and scrubbing and heavy canvas gloves for all dirty work, such as taking care of stoves, and at night be sure to use cold cream and slip on old gloves.

Some Cooking Weights and Measures: 1 beaping tablespoon of sugar quals I ounce; I heaping tablespoon butter equals 2 ounces; I cup of butter equals 15 pound; 4 cups of flour equal 1 pound; 8 round tablespoons of dry material equal 1 cup; 16 table-spoons of liquid equal 1 cup.

Rag Carpet Growing More Popular. With the greatly increased price of Mechanics Magazine bile fabries since the war, the old-time rag carpet has come into its own. There began to be a more or less general use ago, with a constantly increasing popularity, but within the last two years t has come up with leaps and bounds It has been the only carpet many people have felt able to buy and it was the cheapest and most practical thing on the market. It increased some 75 per cent in price and has only now dropped a third of that. It is made by small country manufacturers, both old and new rags being used. A few large manufacturers make it as a side line. Previous to war-times it was most used in colonial and old-time houses for deccrative and period effects. The braided rug, which is associated with the rag carpet, has not shared the increase in popularity. It is always handmade their pupils use Albodon Dental Cream. and consequently more expensive. Before war-time great braided rugs to cover the entire center of the floor ran up as high as \$100 apiece at retail. nations had been appalling, and it was with the well-known antiseptic oils of Both braided mats and rag carpets are now regular staples in the retail carpet

> Saving Bees' Stings. Raising bees for the stings pays an eastern woman better than keeping

the customers are the manufacturing druggists of the country. During th past 24 years this woman has supplied one firm with 25,000 stings annually; other concerns take from 500 to 5,000 each year, making a yearly trade of 50,000 stings. To produce this number but two colonies of bees are necessary,

the purest formic acid obtainable, and

make an amount of honey equal in value to the stings. The methods of taking the sting from a bee is simple. The bees are first gath-

ered in a specially arranged box, by shaking a comb on which they are working, over the mouth of the box. Next, in a room with all the shades but one drawn, the box is opened. As the bees come out of the box they are attracted to the lighted window, and cluster there on glass or screen. Beekeeper picks up the insects by their heads and, holding them under a magnifying glass, draws the stings. For this purpose a small pair of tweezers dish filled with milk sugar, which cov ers them with a coat that prevents de-

Each sting contains a small amount of formic acid, which is removed by distillation. This acid is used in the treatment of rheumatism by homeopathic physicians, being administered in much reduced strength, while doctors of the regular school use it, reduced one-half, for restoring circulation in cases of paralysis, applying it ternally. Formic acid was one of the first of the solid-fat acids discovered, It was originally obtained by distilling common red ants (formica rufa) from which the name is derived.-Popular
